# Easy Fit Carbon Fiber AFO

- Carbon Fiber construction makes this dynamic floor reaction device that is stronger, lighter and thinner making it far more comfortable and much stronger than standard poly AFO braces
- Designed to prevent excessive “push out” of the shoe
- Open heel design eliminates pressure sores, only contacts the patient on the footplate and cuff area; no pressure on the tibia area
- Available with either Medial Strut or Lateral Strut
- Custom fabricated version available in Medial Strut, Lateral Strut, or Double Strut and in Posterior or Anterior Tibia configurations.

Easy Fit Carbon Fiber AFO

## AVAILABLE WITH LATERAL OR MEDIAL STUT

Above braces are also available as custom fabricated products in both custom to measure or custom to cast. Contact our customers department for details. Call for L-Code information regarding this brace.

# Injection Molded Swedish AFO

- Swedish Injection molded AFO provides a dorsiflexion assist to correct foot during gait
- Ideal for drop foot due to CVA or peroneal nerve palsy
- Easily trimmed with kitchen scissors and molded with heat gun
- Low arch and open heel give this AFO a streamlined profile allowing it to be worn with shoes comfortably
- Thicker on the vertical aspect for rigidity and thinner on the footplate for easy trimming
- Foam padding is provided on the calf section and strap for extra comfort
- Velcro® strap secures the AFO around calf

## Injection Molded Leaf Spring AFO

- Strong and Lightweight polypropylene
- Sturdy design and material provides excellent support and return
- Foam padding is provided on the calf section for extra comfort
- Velcro® strap secures the AFO around the calf

## Rigid Molded AFO

- Same features as the Leaf Spring AFO above
- but with extended calf cavity depth design providing more wrap around support than the Leaf Spring design

# Plantar Fasciitis Night Splint

- For conservative treatment of pain commonly associated with recalcitrant plantar fasciitis, Achilles tendonitis, heel spurs, runners cramp, equines, pronation syndromes and other foot conditions
- Long foot effectively keeps patient's foot at desired amount of dorsiflexion, thereby allowing the application of low load continual stretch of the plantar fascia and Achilles tendon
- Orthosis lessens muscle contractures and tightening, thus alleviating or reducing pain
- Soft and comfortable foam and nylon cloth liner. Replacement liner available.
- Adjustment dorsiflexion assist straps
- Strap pad for added comfort
- Universal – Fits Left or Right Foot

## Easy Fit Foam Stirrup Ankle Support

- Easy Fit Foam Stirrup Ankle Supports are made with soft foam material for patient comfort
- Rugged outer shell for superior support
- Open cell foam has no memory for better pressure displacement
- Provides stability to the ankle by minimizing ankle rotation One size fits most – use on either foot
- One size fits most – use on either foot
- Care Instructions – wash in warm water with mild detergent and air dry

PART NO.	DESCRIPTION	SIZE	COLOR	QTY/CS
AF-550-UNI	EASY FIT FOAM STIRRUP ANKLE SUPPORT	UNIV	NAT	6

## Pneumatic Ankle Support

- Pneumatic Ankle Support comes with an inflatable air bladder for a precise fit and support
- Great for mild to moderate sprains, strains, post cast support and injury protection
- Provides medial and lateral control which allows for normal dorsi/plantar flexi
- Provides stability to the ankle by minimizing ankle rotation
- Brace is simple to apply and adjust. Includes bulb for adjustment
- Brace is simple to apply and adjust. Includes bulb for adjustment One size fits most – use on either foot
